

K-Love is a Christian Music formatted radio station. As such, it means that whenever I transport the youth from my Scout troop in my car, I can be assured that we are listening to positive and encouraging music; not the junk and crude language that all too many of the other radio stations play. If you allow the LPFM stations to displace K-Love, I can not be assured of finding some other wholesome station to listen to; thus depriving me and many of the youth that I serve of the opportunity to listen to the radio without having to hear shock jocks and other filth. Communities benefit when the public has the choice to listen to music of faith and inspiration because it provides the adults and the youth with the hard core values which are more frequently being displaced in the media in general. Honestly, I watch very little broadcast tv and listen to very little radio besides K-Love because I just don't know who to believe in besides the news on K-Love. Everyone else has agendas to fulfill-- there is only one agenda on K-Love and surely that can be figured out easily enough. Let the LPFM's displace the shock jocks and other trashy programming that never face this type of threat. Keep K-Love on the air here and everywhere its message can be reached. Grace and Peace~ Greg Connett
